The stock market digested a large volof liquidation yesterday at what seems slight expense of value, considering the appearance of extreme weakness manifested by the market at times. This result was due to the fact that prices were lifted in the early dealings to a level somewhat substantial rally in the late dealings on covering by the professional bears, who taken advantage of the softness of the market to put out extensive short lines. from the short interest and from inside interests, with the purpose of supporting prices in their own stocks. Preparations for this had been made on an elaborate scale in expectation of acute depression on foreign exchanges as a result of Saturday's developments in the Chinese complications, but the weakness in foreign marfeared, partly owing to the fact that the first alarming rumors of the destruction of the foreign legations in Peking and the death of the German minister were somestocks advanced in London before the pening here, and London bought stocks of some companies here at the opening, while selling others. This attitude of London gave color to recent reports that some of the principal bear operators of the New York Exchange, now abroad, have been perating on the short side of the market. They were taking yesterday's opportunity to cover, as their confreres did from this de. The bear traders were active during the day, seeking to uncover stop-loss or ders, and they had considerable success all rough the railroad list, in which the extreme declines at one time averaged from to 11/2 for the principal active stocks. ints, with a final rally of 21/2. Canada ithern, Chicago Great Western prered, Chicago Great Western debentures, locking Valley preferred and Denver & lo Grande preferred lost from 2 to 21/2, Northwestern preferred 3% and Lacka-wanna 4%. The final rally lessened all these losses and entirely wiped out some of the smaller ones. The steel stocks were ecidedly irregular, National Steel declining 2% and Pressed Steel Car, American op, Tennessee Coal and Republic Steel preferred about 2 points each. On the other hand Federal Steel, Steel and Wire

WHEAT ROSE FOUR CENTS, HOLDING ALL BUT A FRACTION.

Northwest Crop 60 Per Cent. Short-Corn and Oats Higher and Provisions Slightly Changed.

CHICAGO, June 18 .- Wheat was sensationally strong and excited to-day, closing 3%c over Saturday. Corn closed 1/20%c and oats 40%c up. The provisions market at the close was barely steady and Startling reports of the extreme gravity

of the crop situation in the wheat-growing States of North Dakota, South Dakota and Minnesota flooded the floor of 'Change today. They were on hand when the market opened and they maintained their early pace throughout the session. The pit was wildly excited. The demand for wheat, especially from the Northwest, was far away the largest of any day this year. Brokers had their pockets stuffed with buying orders from all quarters. Longs took moderate fortunes in profits, but their sales were absorbed almost as sand sucks in water and the market continued the booming advance begun with the ringing of the gong at 9:30 a. m. July opened 1/6%c higher at 75%c to 75%c and almost without a check went booming up to 79%c, %c under the high mark last year. The top was reached half an hour before the close, and such dips as occurred on the advance were comparatively trivial. From the pinnacle of its strength July reacted to 78%c, and closed 3%c over Saturday at 78%@78%c. The great mass of reports may be briefly summarized as to purport as follows: Saturday and Sunday were the worst days of the season for the spring wheat crop in the Northwest; many sections of the Northwest will Nails and Horseshoes.

Clover seed dull and higher, '98 prime, \$5.50; '99 prime, \$5.50; October 100,000,000 prime, \$5.50; '99 prime, and Minnesota combined cannot raise over 100,000,000 bu-a decrease from last year of 129,000,000 bu. The entire yield, winter and spring wheat, notwithstanding the "bumper" crop of Kansas, will not be over 500,-000,000 bu, according to the estimate of Mr. Enow, a Board of Trade statistician. The foregoing, as mentioned, is merely the tenor of the reports received to-day. It would take a good-sized newspaper to print them all. In comparison with the spring wheat advices the winter complaints received little attention, although they were serious enough to start things moving with a clear field to themselves. Illinois, Indiana and Missouri reported damages from excessive rains. Russia was said to be suffering from drought in the south. The market was several cents out of line in respect to cash business and in many instances cash wheat was resold to advantage. Clearances at the seaboard in wheat and flour were equal to 787,000 bu. Primary receipts aggregated \$86,000 bu, compared with 1,022,000 bu last year. Minneapolis and Duluth reported 649 cars, against 776 last year and 846 a year ago. Local receipts were 111 cars, 8 of contract grade. New York reported 25 loads taken for export. Corn for a long time inclined, like vice presidential timber, to resist the hand held out to elevate it. Finally, however, the market grasped the coat-tails of the ascending wheat values and scored a substantial advance. July sold between 39% and 40%, closing %2% up at 39% 40c. Crop reports were favorable, as usual, and the opening was a shade reduced from Saturday's close. Later, shorts covered on the theory that a 4-cent advance in wheat called for some upward action in corn by sheer force of example. Receipts here were 849 cars. Local shipments, including Sunday's, were 1,487,000 bu. Compared with wheat corn was as quiet as the seven sleepers. There were many desertions

from corn to wheat. Oats piped up in a thin, small voice at wheat and said: "Me too," and the big wheat market condescendingly lifted the little one up a bit.' Shorts were the leading buyers, but changing formed much of the business. July sold between 22%c and 23½c, closing ¼6%c improved from Saturday at 23½c. The cash trade was draggy. Receipts here were 325 cars. Provisions were steady, but no attempt was made by the controlling interest to unduly stimulate the market. Trade was

rather quiet and the main business of the day was in changing July over to September. Hog receipts were lighter than expected and the markets at the yards higher. July pork sold between \$11.65 and \$11.47%, and closed unchanged at \$11.50; July lard between \$6.721/2 and \$6.671/2, closing 21/2c lower at \$6.671/2, and July ribs between \$6.77½ and \$6.72½, with the close 2½c higher at \$6.72½. The September premium at the close was from 7½c in ribs to 20c in pork.

Estimated receipts to-morrow: Wheat, 136 cars; corn, 1,190 cars; oats, 420 cars; hogs, 24,000 head. Leading futures ranged as follows:
